EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Beck on 12/8/06.

The application has been amended as follows: Claims 5, 6, and 8-10 have been cancelled.

In the title: "process and" has been deleted.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or fairly suggest a machine for folding and applying onserts to goods wherein the apparatus forms two onserts in a side-by-side relationship which are moved onto diverging paths and then onto a pair of spaced apart lug belt conveyors which receive the onserts from the diverging paths and transport them to the applicators which apply them to the goods. While Vijuk forms two side-by-side onserts and Bahr et al. applies multiple nearby onserts onto goods, there is no suggestion to transfer the onserts onto a lug belt conveyor after moving them on diverging paths rather than applying them directly to the goods after the onserts are separated.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on
